

1 think that would make it move a little faster.
2 I'm not sure the question came out quite as
3 clear as you just said it then, and I'm fine
4 with that procedure, but I just wanted to make
5 that for the record.

6 A. Another half page yellow handwritten
7 by me, John, will you include my two books, Gospel,
8 Spirituality and Astrology in your bibliography.

9 Another small yellow page says, my handwriting,
10 also regarding the talking with members section, we of
11 course could not cover all that can be said about
12 communications to non-Christian spiritual seekers. For
13 an in-depth treatment of this vital aspect of Christian
14 witness we recommend Charles Strohmmer's book. This book
15 develops a fresh and in-depth biblical model for
16 communications.

17 Some of these words, by the way, are
18 abbreviated but I'm saying them outloud.

19 Q. That's fine.

20 A. And the principles are well worth
21 picking up and putting into practice when talking with
22 people in cults and new religions.

23 This next is a large yellow paper with my
24 handwriting on it which is -- lists copy editing. It
25 starts off, it says, what copy editing entails. Close up

1 spaces, check for caps, check for small caps, BC, AD,
2 NIV, NAS, verb tense, personal pronoun problem (sexist),
3 check biblical refs, check accuracy of dates, check
4 spelling, universalize punctuation for quotes and
5 extracts. 'If, and, or but or if, and or but, commas,
6 semi-colons, colons, dashes, check punctuation within
7 quotes, M, N, and hyphenated dashes, italics, go easy on,
8 let the placement of the work -- sorry -- let the
9 placement of the word tell parallel elements, good
10 example, page 28, JWMS on cults, Budd chapter four to
11 fifth lines from bottom. Some kind of quote here. I
12 can't read it, Theravada views, something, have placed,
13 end of quote, to quote Mahayana places, end of quote.
14 Then there's some kind of doodle, two -- two flaws
15 corrected. I don't know what that is. Check for correct
16 words, ensure or insure. That's e-n or i-n, ensure and
17 insure. See page 41, Budd chapter, manuscript, MS --
18 sorry -- MSJW encyclo cult, mid-page.

19 Q. Let me ask you a question about one
20 thing you read on that page before you went to the next
21 one. I think you read a line that says, let the
22 placement of the word tell; is that correct?

23 A. Yes.

24 Q. What does that mean in that context?

25 A. That's a -- writers have a tendency,
